SAQLAIN SHAIKH

Senior Full Stack Developer | React Native Specialist

+91-8669390062 | Thane, Maharashtra, India
saqlainshaikh578@gmail.com
LinkedIn: Saqlain-Shaikh | Portfolio : Saqlain-Shaikh

PROFESSIONAL SUMMARY

Senior Full Stack Developer with **5+ years** of experience, specializing in **React Native** (Android, iOS, Expo) with hands-on **Node.js** and **Express** backend development using **MongoDB, MySQL and PostgreSQL**, plus React.js and Next.js. Built and shipped **10+ production apps** across Dating, Streaming, Food Delivery, Real Estate, E-Commerce and B2B domains. Strong in real-time chat, payment integrations (Stripe, Razorpay, PayPal, Google Play and Apple IAP), biometric KYC, CI/CD and Play Store and App Store release ownership. Available immediately.

TECHNICAL SKILLS

Mobile Development: React Native CLI, Expo (Managed & Bare Workflow, EAS Build, Expo Router), React Navigation, Reanimated, Gesture Handler, Android Studio, Xcode, Play Store & App Store Release Management, ASO
Frontend & Languages: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Redux Toolkit, HTML5, CSS3
Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Webhooks (Stripe, Razorpay), Swagger / OpenAPI, Postman
Databases: MongoDB (NoSQL); MySQL, PostgreSQL (SQL)
Payments & Identity: Stripe, Razorpay, PayPal, react-native-iap (Google Play & Apple IAP), Server-Side IAP Verification, Biometric Identity Verification & KYC (Persona, Sumsub, Didit Protocol)
Real-Time & Cloud: Firebase (Realtime Database, FCM), Notifee, Socket.IO, WebRTC, AWS, Twilio, OneSignal
DevOps, Quality & Monitoring: GitHub Actions, Fastlane, Git, Jest, ESLint, Prettier, Firebase Crashlytics, PostHog (Session Replay), Datadog, Grafana
Other: MercurJS / Medusa v2 (Node.js), AI Agents & Prompt Engineering, GitHub Copilot, Agile, Scrum

KEY ACHIEVEMENTS

- Sole mobile engineer for Oreya, a live dating, matchmaking, and service-booking platform, owning architecture, UI, API integration, and the full release lifecycle end to end.
- Built backend REST APIs with authentication and middleware for Hukum Kijiye and BoppoStream on SQL and MongoDB, and worked with the backend team on API design at Oudience.
- Integrated 3 payment gateways (Stripe, Razorpay, PayPal) and 2 IAP platforms (Google Play, Apple App Store), powering subscriptions, premium features, and in-app purchases.
- Implemented biometric identity verification and KYC with 3 providers (Sumsub, Persona, Didit Protocol) to meet trust, safety, and compliance requirements.
- Maintained 99.5% crash-free sessions in production using Firebase Crashlytics and PostHog (session replay).

EXPERIENCE

Senior Full Stack Developer (React Native) | July 2024 – Aug 2026

Oudience LLC | United Arab Emirates

- Sole mobile engineer on Oreya, a live dating, matchmaking, and restaurant & service booking platform. Built the app from scratch and independently owned architecture, UI, API integrations, and Play Store & App Store releases.

- Worked closely with the backend team on API design and integration, and contributed backend-side fixes to get blocked features live in production. Built and maintained a Vendor Storefront Admin on MercurJS (Medusa v2, Node.js).
- Built end-to-end payment infrastructure (Razorpay, Stripe, Google Play IAP, Apple IAP) powering subscriptions, premium features, bookings, and service payments, along with multi-provider biometric KYC flows (Sumsub, Persona, Didit Protocol).
- Developed real-time chat and an AI-powered matchmaking assistant, with push notifications via Firebase (FCM, Realtime Database) and Notifee, plus geolocation-based match and restaurant discovery, table reservations, and service booking flows.
- Set up CI/CD with Fastlane and GitHub Actions for Android & iOS build, signing and release submission. Managed ASO, versioning and Oreya production releases, and monitored stability with Firebase Crashlytics and PostHog (session replay).
-

Senior React Native & Full Stack Developer | Nov 2023 – July 2024

Boppo Tech Pvt. Ltd. | Navi Mumbai, India

- Developed high-performance React Native applications for Android and iOS, collaborating with software managers on delivery planning and timelines.
- Built the BoppoStream backend together with the team: REST APIs, authentication, middleware, server-side handling and database design (SQL and MongoDB), to keep releases on schedule.
- Led and mentored junior developers on React Native UI/UX, API integrations, and coding best practices through regular code reviews.
- Delivered the full development cycle (coding, unit and integration testing) for KeyDemand (commercial real estate leasing platform; React Native, REST API, AWS) and BoppoStream (movie and video streaming app).

React Native Developer | Feb 2021 – Nov 2023

The Schnell App Pvt. Ltd. | Bhiwandi, India

- Developed and maintained React Native applications for Android and iOS, focusing on UI development, functionality, and API integrations.
- Built and shipped Hukum Kijiye (April 2021 – Jul 2023), a full food delivery ecosystem with user, vendor and delivery partner apps, an admin dashboard and a web interface. Built its backend: REST APIs, authentication, middleware and server-side logic on SQL and MongoDB.
- Developed NBH (Networking Business Hub), a B2B networking app with geo-tagged member discovery, business post feed, classified ads, and an integrated marketplace. Built its backend REST APIs and integrated them with the app, admin dashboard and web interface.
- Implemented Firebase real-time chat and push notifications, and PayPal payment gateway integration. Supported deployment, maintenance and production issues to keep the apps stable.

EDUCATION

Master of Science — Information Technology — University of Mumbai, B.N.N. College (2025)

Bachelor of Science — Information Technology — University of Mumbai, B.N.N. College (2022)

Both degrees completed in distance / part-time mode while working full time.

HSC (12th) — B.N.N. College (2017)

SSC (10th) — KMES High School (2015)
